DIARY NOTES

25X1A

ADD/A

24 October 1952

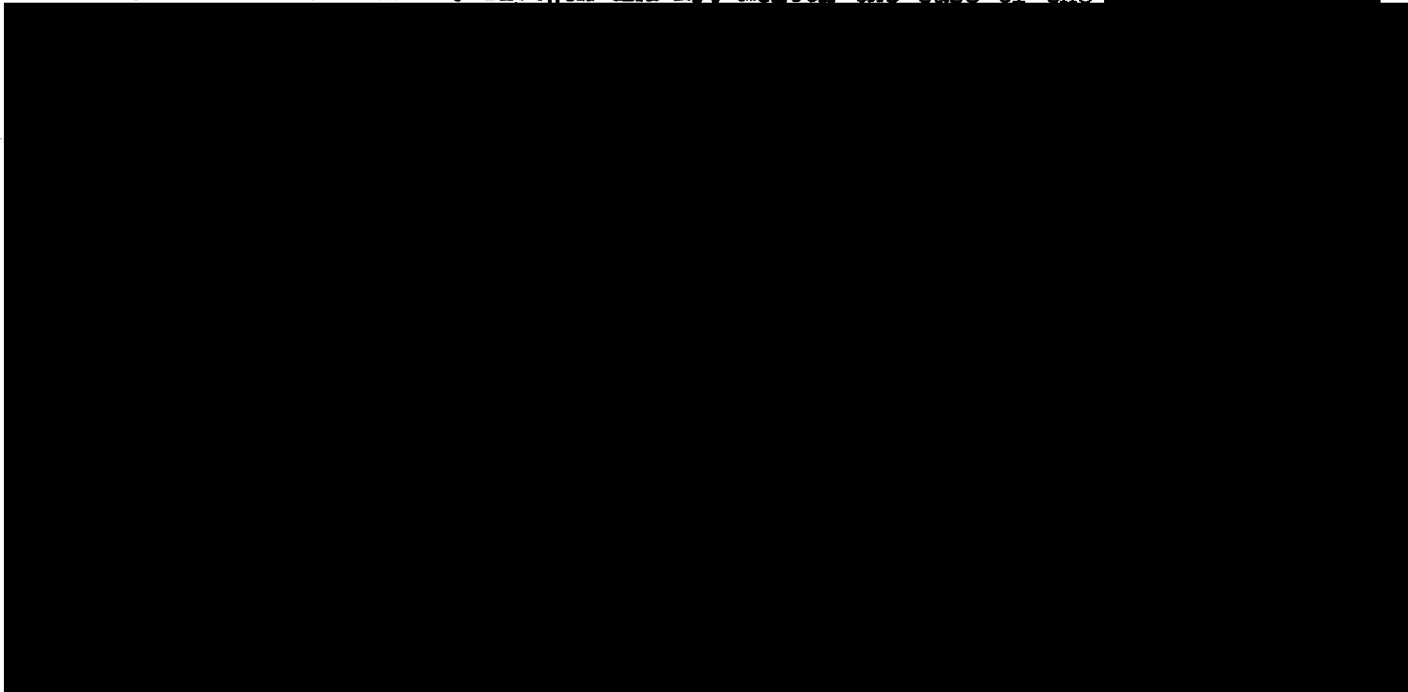

25X1A9a

1. I asked Ed Saunders to get in touch with [REDACTED] regarding financing the party for the Tripartite Security Group at the Carlton next Friday night.

25X1A9a

25X1A9a

2. Discussed with Dr. Tietjen and Mr. Meloon the case of one [REDACTED]

3. Talked to Bill Peel and [REDACTED] about our new regulations. We are agreed on an approach which will make [REDACTED] responsible for getting assistance from the Organization and Methods Service until their new Publications Control Officer, who is coming on duty in about two weeks, is prepared to take over; this will be several months. I have asked [REDACTED] to have a statement of principles ready to discuss at our staff meeting on Monday.

25X1A

25X1A9a

4. Talked to Messrs. [REDACTED] about our new [REDACTED] (the one which would do away with the old CCC and substitute the new system for it). Mr. [REDACTED] takes the position that he thinks the Regulation is substantially all right but in its implementation he wants DD/A, not DD/P, to be responsible for preparation of all administrative plans. This is contrary to the concept which we have previously discussed.

Source: [REDACTED]

25X1A9a 5. I instructed [REDACTED] to get in touch with [REDACTED] and to make 25X1A9a  
it crystal clear to him that we objected to his going abroad for any purpose what-  
soever prior to Mr. Garrison's return and a complete review of the whole Foreign  
25X1A9a Arms Procurement Program insofar as it involved [REDACTED] I told [REDACTED] 25X1A9a  
25X1A9a that if [REDACTED] did not comply with our wishes I should be advised and that we  
would then consider whether it was advisable to take steps to have his passport  
withdrawn.

25X1A9a [REDACTED] informed me later in the day that he had talked to Mr.  
25X1A9a [REDACTED] who assured him that he would not consider going to Europe or sending anyone  
until Jim Garrison returned and we had a chance to review the whole matter.

25X1A9a 6. General Morris telephoned to say that [REDACTED] was being profitably 25X1A9a  
used in the Procurement and Supply Office and requested permission to allow him to  
remain there until mid-November when a final determination will be made as to whe-  
25X1A9a ther he can replace [REDACTED] I approved.

25X1A9a [REDACTED]

25X1A9a 8. I asked [REDACTED] to send a cable to [REDACTED] telling them to hold Jim 25X1A6a  
Garrison there until he received our message regarding the [REDACTED] flap. 25X1A6a

25X1A9a On Saturday [REDACTED] of the Signal Center telephoned me at home to say  
25X1A6a that a cable had been received from [REDACTED] to the effect that Mr. Garrison did re-  
ceive our cable to him before he departed.
